ACADEMIC PROGRAM**  
*Education. Research. Outreach.*

## **(ISC)<sup>2</sup> Global Academic Program Summit** April 29, 2015 | 10:00 a.m. – 12:00 p.m. (EST)

### **Learn how to become an (ISC)<sup>2</sup> Global Academic Program Member**

Enhance the foundation of your institution's cybersecurity curricula and provide your students with a career pathway to success through the (ISC)<sup>2</sup> Global Academic Program – a key (ISC)<sup>2</sup> initiative that is part of the organization's commitment to address the growing gap in availability of qualified cybersecurity professionals, identified year-over-year since 2004 by the (ISC)<sup>2</sup> Global Information Security Workforce Study. As governments around the world seek to improve university curricula as part of their national cybersecurity strategies, (ISC)<sup>2</sup> is making its educational resources, updated regularly by members and industry luminaries, available to academia to help meet the global demand for more skilled cybersecurity professionals.
